Equitable Education Fund

What do we do?

Vision

Children, Youths, and everyone who is underfinanced or disadvantaged can have access to quality education

Mission

Induce all sectors to propel and support the educational opportunities in order to reduce the inequality and improve teacher quality

Goals & Objectives

Learning Access

Encourage children and youths to have an access to quality education and prevent them from dropout, especially in compulsory education levels

Alternative Education

Support youths and one who is outside the education system to have access to learning throughout their lives for self and professional development

Learning Outcome

Encourage institutions, related stakeholders, communities, and public sectors to be able to support education management so that learners can receive quality learning outcomes and reduce the inequality in education

Systems Change

Create innovations, knowledge, and databases to be used to drive change at the policy level. Build network connectivity to address educational inequalities while mobilization of resources

Unique features of The Equitable Education Fund (EEF) Act

1. Equity-focused Public Fund with Tax Incentives for Private Donation
2. Independent Management under Prime Minister's Supervision and Governing Board consists of officials from five Ministries (Education, Finance, Social Development, and Human Security, Public Health, and Interior) and experts from various sectors (academic, private sector, and civil society)
3. Multi-sectoral, Multi-disciplinary, and Area-based Approaches to Equity
4. Evidence-based and Research-based Policy s through the cabinet, parliamentary, and public advocacy
5. Investing in scalable innovations with partners

Deep-Dive Projects with PPP

Ratchaburi Province Model (3 Yrs.) for Zero Dropout with Sansiri PLC

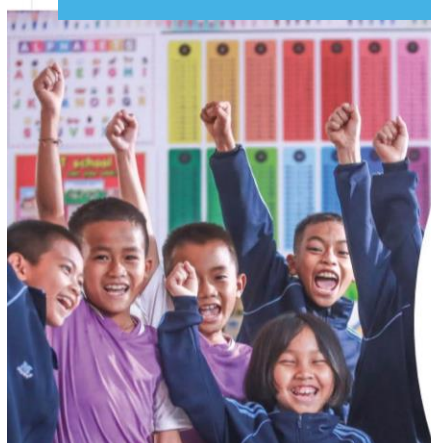

SANSIRI

ZERO DROPOUT

All students will have access to education

SANSIRI ZERO DROPOUT: ALL CHILDREN GO TO SCHOOL
SANSIRI LAUNCH CORPORATE BONDS, WORTH 100 MILLION BAHT
to raise funds for the "Zero Dropout" project to support the Equitable Education Fund (EEF).

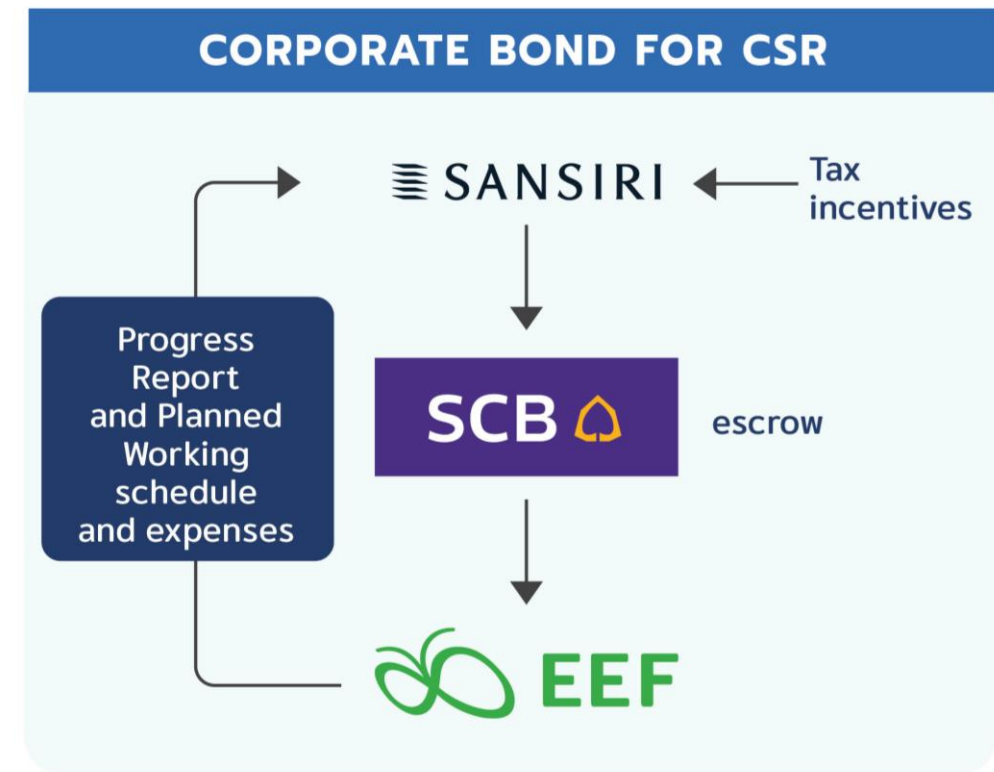

EEF

THE FIRST TIME CORPORATE BONDS WITH TWO BENEFITS OF INVESTMENT.

FIRST EARN 3.20%
interest on investment per annum.

SECOND HELP ALL CHILDREN GO TO SCHOOL.

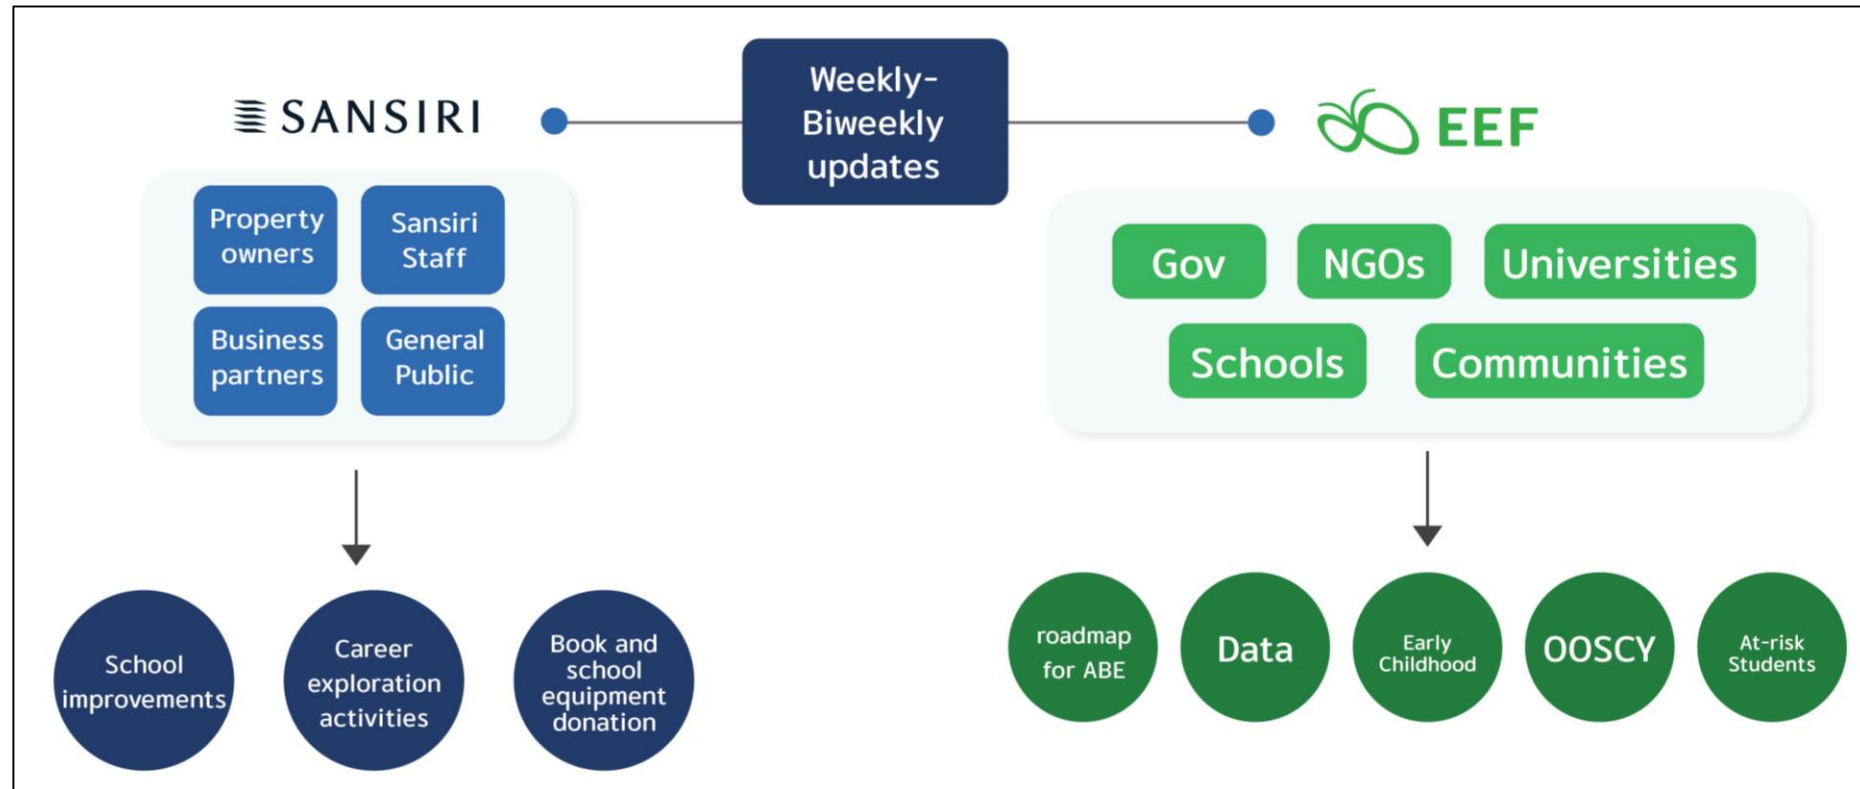

Deep-Dive Projects with PPP

Seek Engagement Opportunities and Activities – e.g.
School Improvements, Book donations, Career
Exploration Activities

Engage local partners to expand existing programs, expand new
stakeholders and new target populations, drive synergies and
support local leadership to create sustainability of programs

Deep-Dive Projects with PPP

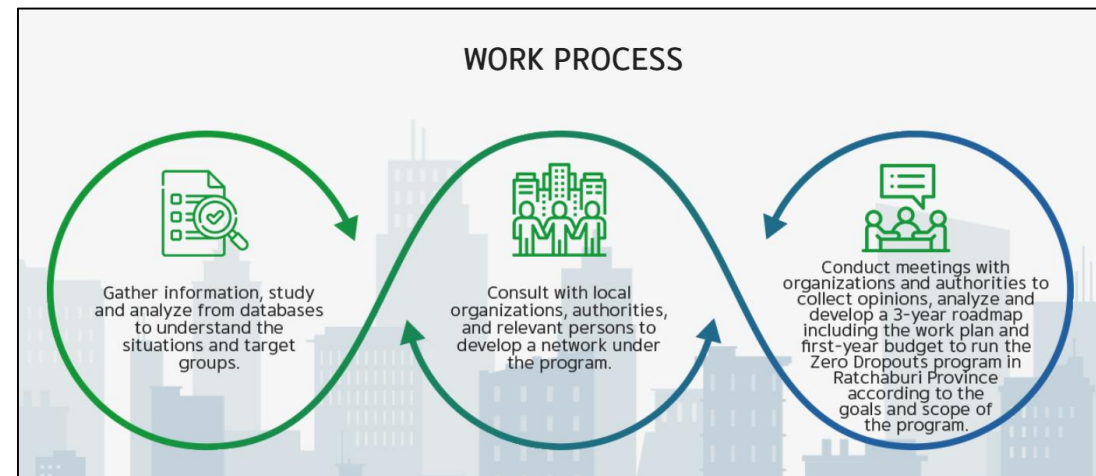

"Ratchaburi Model", a model province for children and youths to have “ZERO” drop out of the education system in 3 years

There are 10,000 children at risk of dropping out of education, suitable for 100 million baht in funding.

There are many problems of inequality in education.

Being close to Bangkok, all sectors can take part in assisting to do all activities to help children.

Sansiri has no conflicts of interest in the model area.

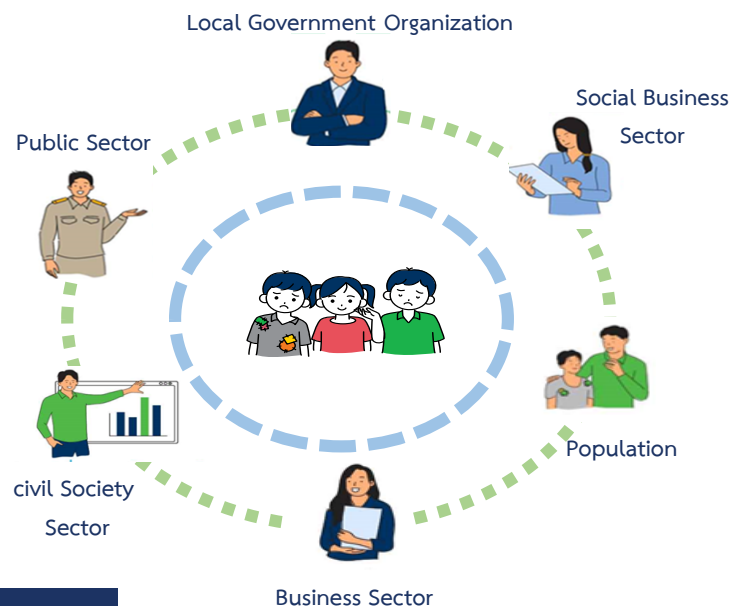

Deep-Dive Projects with ABE

“Area-based Education Project”

A form of working mechanism, a **3-Level Area**

- 1) Provincial level
- 2) District level
- 3) Community level

Goals

Expected goals spatial management appropriate to the provincial context.

EEF's target is to have a local EEF representative.

Project goals are to cooperate mechanisms, and databases, and help scale models

Working Mechanism (ABE)

- Academic Department
- Civil Society
- Education Assembly
- Local Government
- Public Sector

In 2022, **12 provincial** model samples were covering all **4 regions** and special areas such as the 3 southern border provinces.

Deep-Dive Projects with ABE

'Nakhon Phanom Model' drives equitable education plans

Cooperation from **21 agencies** and network partners at Nakhon Phanom Model resulted in the database of informal children and youth in various ways from **12 model schools and 12 model sub-districts**, curricula, mobile schools, research, and vulnerable children under the strategy of 3 years with 5 cooperation.

Phitsanulok Model mobilizes all surveillance units.

Preventing children from falling out of the education system.

- Spatial Education Management Project for Educational Equity Phitsanulok Province, phase 2, helping children and youth outside the education system in 5 districts
 - Bang Rakam District
 - Wang Thong District
 - Mueang district
 - Phrom Phiram District
 - Wat Bot District
